PROFESSIONAL SUMMARY

Cloud Architect and Solution Specialist with 4+ years of focused cloud experience and 9 years of overall infrastructure expertise across AWS, Azure, Linux, and Windows environments. Designs secure, scalable, and cost-effective platforms; leads migrations; automates provisioning with CloudFormation and Terraform; and translates technical decisions into measurable business outcomes.

AREAS OF EXPERTISE

- End-to-end cloud migration: assessment, transfer, re-hosting, validation, and cutover.
- Infrastructure as Code with CloudFormation and Terraform for repeatable provisioning.
- AWS and Azure cost optimization, governance, monitoring, security, and compliance.
- Linux and Windows administration across cloud and on-premises environments.
- Client communication, technical leadership, mentoring, and knowledge sharing.

TECHNICAL SKILLS

Cloud	AWS: EC2, S3, RDS, Lambda, ELB, VPC, Backup; Microsoft Azure
Automation & IaC	CloudFormation, Terraform, Bash scripting, Azure Automation
Security & Network	IAM, WAF, Shield, GuardDuty, NSGs, VPC/VNet, VPN, Route 53, Cloudflare, CloudFront, ALB/ASG
Systems & Data	Linux, Windows Server, ADDS, IIS, GPO, DHCP, Hyper-V, VMware, MySQL, SQL Server, AWS DMS
Monitoring & Web	CloudWatch, Azure Monitor, Site24x7, StatusCake, Apache, Nginx, Tomcat, WebLogic, WordPress

PROFESSIONAL EXPERIENCE

Cloud Solution Specialist Hanu Software (now part of Insight) Client: Johnson & Johnson	Dec 2022 - Present
Design and implement AWS infrastructure supporting scalable, secure applications; administer Linux, web, and database platforms; and automate deployment and maintenance.	
• Built reusable CloudFormation templates that improved provisioning efficiency across concurrent projects. • Integrated AWS WAF and Shield to strengthen security and compliance. • Led client knowledge-sharing and partnered with stakeholders throughout infrastructure migrations.	
Cloud Specialist LoanTap Financial Technology Pvt Ltd	Jan 2022 - Dec 2022
Supported AWS infrastructure, databases, and WordPress sites end-to-end, including on-premises migrations and network traffic control via WAF, ALB, and Route 53.	
• Migrated web servers and databases to AWS with minimal downtime. • Developed cost-saving strategies and standardized troubleshooting documentation. • Configured stringent AWS WAF access-control rules.	

CERTIFICATIONS

AWS Certified
Solutions Architect - Associate
SysOps Administrator - Associate

Microsoft Certified
Azure Administrator Associate
Azure Network Engineer Associate
MCSA: Windows Server 2016

TECHNICAL CORE

AWS • Azure • Terraform
CloudFormation • IAM • WAF
VPC • VPN • Route 53
Linux • Windows Server
CloudWatch • Azure Monitor

PROFESSIONAL EXPERIENCE - CONTINUED

Team Lead - Cloud Operations Rapyder Cloud Solutions India Private Limited

Mar 2020 - Jan 2022

Led ITIL-compliant operations, AWS services, Windows/Linux administration, secure VPC design, and complex cloud migrations.

- Enhanced backup and recovery protocols across cloud environments.
- Championed IAM role management and access governance.
- Drove cost optimization through improved monitoring and alerting.

System Engineer Cerebra Integrated Technology Ltd.

May 2017 - Mar 2020

Supported Microsoft Azure, SQL Server, virtual machines, database migrations, disaster recovery, failover clustering, domains, DHCP, Group Policy, and DNS.

- Improved Azure performance through configuration and system tuning.
- Implemented disaster recovery and failover strategies for critical applications.
- Created proactive maintenance schedules that reduced downtime.

SELECTED PROJECTS

Biryani By Kilo: Highly available AWS environments using EC2, S3, EBS, Route 53, RDS, and Aurora across multiple accounts.

Navi Migration: On-premises to AWS migration via Migration Hub, including landing zone, discovery, cost estimation, backup, monitoring, ALB, ASG, and GuardDuty.

ServicePlus: Rackspace to AWS RDS migration with AWS DMS, saving \$1,500 through account optimization.

NIMHANS: AWS infrastructure with VPC, IGW, NAT, Route 53, CloudFront, RDS, Global Accelerator, Linux, WordPress, PHP, Nginx, and Redis.

ISRO - SDSC SHAR: VMware ESXi, vCenter, and Horizon VDI environment for 100 Dell Wyse clients.

Indian Air Force: Windows Server 2012R2, RAID-5, domain services, Hyper-V, and failover clustering on Fujitsu servers.

EDUCATION

MCA - Master of Computer Applications Annamalai University	2022
BCA - Bachelor of Computer Applications Annamalai University	2020
Diploma in Computer Science Engineering BSF Institute of Technology	2017
