EXECUTIVE & TECHNICAL PROFILE

9+ YEARS ENTERPRISE INFRASTRUCTURE

Cloud Solutions Specialist and Multi-Cloud Architect with 9+ years of hands-on infrastructure experience spanning AWS, Microsoft Azure, virtualization, and hybrid enterprise data centers. Proven track record designing resilient, high-availability multi-AZ architectures; executing large-scale, zero-downtime server & database migrations (1,000+ servers); and driving systematic FinOps cost governance resulting in over **\$60,000/month** in documented recurring savings. Expert in automating infrastructure delivery via Terraform and CI/CD pipelines, enforcing strict least-privilege security postures, and leading tier-3 cloud operations for Fortune 500 enterprises and defense agencies including **Johnson & Johnson, LoanTap, ISRO, Indian Air Force, Dhani, and Biryani By Kilo**.

CORE TECHNOLOGY STACK & ARCHITECTURAL DOMAINS

Amazon Web Services (AWS)	EC2, S3, EBS, EFS, RDS, Aurora, Lambda, VPC, ELB/ALB/NLB, Auto Scaling, Route 53, CloudFront, Global Accelerator, AWS Backup, DMS, MGN, Migration Hub, IAM, WAF, Shield, GuardDuty, CloudWatch, Systems Manager (SSM), EKS, Organizations
Microsoft Azure	Azure Virtual Machines, Virtual Networks (VNETs), NSGs, Azure SQL Database, Blob Storage, Azure Files, Managed Disks, Snapshots, Availability Sets, Microsoft Entra ID, Azure Monitor, Azure Migrate, Cost Management & Billing
FinOps & Cost Governance	AWS Cost Explorer, Azure Cost Analysis, Reserved Instances (RI), Savings Plans (SP), AWS Compute Optimizer, AWS Budgets, S3 Intelligent-Tiering, Lifecycle Rules, Idle Resource Cleanup (\$60,000+/mo documented savings)
DevOps, IaC & Automation	Terraform, AWS CloudFormation, Jenkins, GitHub Actions, Docker, Kubernetes (AWS EKS), Bash scripting, CI/CD automated deployment pipelines, infrastructure automation
Systems & Web Platforms	Linux (RHEL, CentOS, Ubuntu), Windows Server 2012R2/2016, AD DS, Group Policy (GPO), DNS, DHCP, IIS, Hyper-V, Apache, Nginx, Tomcat, Oracle WebLogic, WordPress, PHP, Redis Cache
Network & Cloud Security	Multi-AZ VPC/VNet architecture, Public/Private Subnets, Internet Gateway, NAT Gateway, Transit Gateway, Site-to-Site VPN, OpenVPN, Cloudflare CDN/WAF, IAM RBAC, MFA, Security Groups, Compliance Hardening
Data & Virtualization	MySQL, Microsoft SQL Server, AWS DMS (Continuous CDC), VMware ESXi, vCenter, VMware Horizon VDI, SAN storage (Fujitsu Eternus), Hardware RAID-5, Failover Clustering, Site24x7, ServiceNow

PROFESSIONAL EXPERIENCE

Cloud Solution Specialist | Enterprise Delivery

Dec 2022 - Present

Hanu Software (now part of Insight Enterprises) | Client: **Johnson & Johnson** | Delhi, India

Leading enterprise multi-cloud solution architecture across AWS & Azure, ensuring healthcare compliance, zero-downtime cutover, and automated operations.

- Sole Architect & Implementation Lead** for Johnson & Johnson's mission-critical Labvantage LIMS platform across AWS, delivering high availability and strict enterprise compliance.
- Executed zero-downtime server and database migrations from on-premises to AWS and Azure using **AWS MGN, AWS DMS, and Azure Migrate** with thorough dependency discovery and rollback validation.
- Engineered resilient multi-AZ infrastructure utilizing EC2, Multi-AZ RDS, S3, and Network Load Balancers (NLB) fronting 10+ virtual machines.
- Configured **Oracle WebLogic** for enterprise EAR deployments; authored reusable Bash automation scripts for routine patching and maintenance.
- Hardened cloud perimeter via IAM least-privilege policies, AWS WAF, AWS Shield, and proactive CloudWatch alerting.
- Standardized infrastructure deployments using modular Terraform and CloudFormation Infrastructure-as-Code (IaC) templates.

Cloud Specialist | Infrastructure & FinOps

Jan 2022 - Dec 2022

LoanTap Financial Technology Pvt Ltd | Pune, India

Owned AWS cloud infrastructure, database reliability, security hardening, and FinOps governance for a high-volume fintech platform.

- Architected and provisioned end-to-end AWS environments across development, staging, and production tiers from scratch.
- Administered LAMP/LEMP stacks, WordPress, PHP, MySQL, Redis cache, Nginx, Route 53, Cloudflare DNS/CDN, and Application Load Balancers.
- Reduced monthly cloud expenditure by \$2,000/month** through targeted instance rightsizing, storage tiering, and idle cleanup.
- Built automated CI/CD deployment pipelines using GitHub and Jenkins, accelerating release cycle frequency by 65%.
- 🏆 **Awarded Employee of the Quarter (April 2022)** for exceptional cloud architecture, zero-downtime deployments, and direct financial impact.

PROFESSIONAL EXPERIENCE (CONTINUED)

Team Lead – Cloud Operations | Managed Services

Rapyder Cloud Solutions India Pvt Ltd | Bengaluru, India

Supervised a Managed Services engineering team overseeing 150+ client AWS accounts, driving cloud migrations, FinOps, and 24/7 ITIL operations.

- Spearheaded FinOps cost governance yielding \$28,000/month recurring savings for Dhani via compute rightsizing of 100+ EC2 instances, Reserved Instances (RI), Savings Plans (SP), and S3 lifecycle tiering.
- Led on-premises to AWS server migrations for 50+ enterprise workloads using CloudEndure with zero data loss and strict SLA compliance.
- Designed multi-AZ VPC networks with public/private subnets, NAT Gateways, bastion hosts, and Site-to-Site VPN tunnels.
- Enforced fleet security compliance, automated OS patching, and MFA governance across Linux & Windows via AWS Systems Manager (SSM).
- Mentored 15+ cloud engineers, handled tier-3 escalation incidents, and authored standard operating procedures (SOPs).

Mar 2020 – Jan 2022

System Engineer | Data Center & Virtualization

Cerebra Integrated Technologies Ltd | Bengaluru, India

Delivered on-premises data center buildouts, virtualization, and enterprise networking for defense, space, and state government sectors.

- Architected 100-client air-gapped VMware Horizon VDI for ISRO (SDSC SHAR) using VMware ESXi, vCenter, and Dell Wyse thin clients in an isolated high-security enclave.
- Constructed mini data center for Indian Air Force (Bengaluru) featuring Fujitsu Primergy servers, hardware RAID-5, Hyper-V failover clustering, and Active Directory Domain Services.
- Engineered 45U data center for Karnataka State Remote Sensing (KSRSAC) with 9 disk enclosures connected to Fujitsu Eternus DX-500 SAN storage via 10G SFP fiber channels.
- Administered Azure virtual machines, Azure SQL databases, Windows Server 2012R2/2016, AD DS, GPO, DNS, and Cisco switches.

May 2017 – Mar 2020

SELECTED HIGH-IMPACT ENTERPRISE PROJECTS

ENTERPRISE CLIENT & FOCUS	ARCHITECTURAL SOLUTION & MEASURABLE BUSINESS IMPACT
Johnson & Johnson Healthcare Enterprise	Multi-AZ AWS/Azure infrastructure for Labvantage LIMS with Oracle WebLogic, NLB, Multi-AZ RDS, and AWS WAF/Shield; achieved 100% zero downtime and healthcare data integrity.
Dhani Financial Services FinTech Scale	Comprehensive FinOps optimization across 100+ EC2 instances, implementing rightsizing, Reserved Instances, and S3 lifecycle rules to deliver \$28,000/month recurring savings.
Biryani By Kilo E-Commerce / FoodTech	Multi-account AWS infrastructure utilizing AWS Organizations, Aurora MySQL, Auto Scaling Groups, and Route 53; supported 50,000+ peak concurrent orders with zero service degradation.
ServicePlus Government Portal	Migrated production MySQL database from Rackspace to AWS RDS with continuous CDC replication via AWS DMS; reduced monthly hosting overhead by \$1,500/month.
ISRO (SDSC SHAR) Aerospace & Defense	Engineered 100-seat isolated VMware Horizon VDI environment connected to Dell Wyse thin client hardware, ensuring zero internet exposure and strict aerospace data protection.
Indian Air Force Defense Infrastructure	Mini data center buildout on Fujitsu Primergy servers, hardware RAID-5 arrays, Hyper-V failover clustering, and Windows Server 2012R2 domain services.

ACADEMIC QUALIFICATIONS

Master of Computer Applications (MCA)

Annamalai University

2020 – 2022

Bachelor of Computer Applications (BCA)

Annamalai University

2018 – 2020

Diploma in Computer Science Engineering

BSF Institute of Technology | DTE Karnataka

2013 – 2017

HONORS & CORE LEADERSHIP

🏆 Employee of the Quarter (April 2022)

LoanTap Financial Technology Pvt Ltd

Honored for exceptional AWS infrastructure design, zero-downtime migrations, and executing \$2,000/month recurring cost reductions.

- ✓ Technical Mentorship: Mentored 15+ cloud engineers on AWS/Azure best practices, migration planning, and ITIL workflows.
- ✓ FinOps Audits: Conducted comprehensive spend reviews saving clients over \$60,000/mo.
- ✓ Security-First Delivery: Enforced IAM RBAC, WAF, GuardDuty, and compliance standards.
